To Whom It May Concern:

Re: Testimonial - S A Gutter Guard

I would like to express my appreciation for the professionalism and good old fashion reliable service provided by SA Gutter Guard for the supply and installation of my leaf guard system at my country property.

Throughout the installation SA Gutter Guard cleaned out my gutters before installing the leaf guard mesh and then unlike other contractors we have had at our property SA Gutter Guard cleaned up the surrounding area and left our property in same and or better condition as it was when they arrived.

Because we live on a country property with no mains water supply we rely entirely on rain water for our domestic use for this reason it is very important we collect as much rain water as possible. To my amazement even with the extreme downpour we had recently using the SA Gutter Guard product we managed to collect all the rain water run off from the roof into our storage tanks without the gutters overflow.

Thanks again to SA Gutter Guard for a job well done.

Regards
